

To whom it may concern:

I am in complete support of XM Instant traffic and weather. It has become a service I use multiple times daily.

I specifically pay for the 24hour service XM offers. Indeed, because I pay for these services, I do not agree with the ability of the NAB's authority to control these services or any others offered by XM.

I respectfully urge the National Association of Broadcasters to reject the petition 04-160.

Regards,

Lisa Lakritz
